

Flowrates

Aluminium & Cast Iron Downpipes

Ref: FR004RW

The capacity of a rainwater system is usually dependent upon the capacity of the gutter outlet or flat roof outlet rather than the rainwater pipe.

Please refer to BS EN 12056-3:2000, Section 6, Table 8 for capacities of vertical rainwater pipes.

Flowrates for the following Alumasc Gutter systems are available:

- Heritage Cast Aluminium
- Aqualine Extruded Aluminium
- GX Pressed Aluminium
- Apex Heritage Cast Iron
